

PETITSHIB

From Digital To Tangible

The PetitShib Project arises through years of studies on the world of cryptocurrencies as a new modern payment system inspired by decentralized investments that gave rise to the digital asset Bitcoin, the mother of all cryptocurrencies, something new and amazing, using mathematical equations complex, formed by mathematical algorithms, a process based on encrypted block chains that make it establish itself as a secure and functional system as an exchange of digital assets. By virtue of this, we managed to develop our cryptocurrency through the Binance Smart Chain network, managing to build a Token based on smart contracts.

The PetitShib project came with proposals and realities that make it a great visionary project. This is a token that will become digital gold in the future, where everyone will want to have it due to its usability and trust. PetitShib together with its PetitTeam community will make it a reality to go from the digital to the tangible, PetitShib is immersed in the World of the Metaverse, a universe that combines a large totally useful ecosystem, deeper than a commercial exchange, the PetitTeam community will have a participation active in the development of new Mega PetitShib projects.

PetitShib it is a token that offers great solutions to many problems, with PetitShib you will be your own central bank

PetitShib Ecosystem is Huge and Ambitious projects

- PetitShib digital token and allies Thiaran Inu and La Jauria
- MarketPlace NFT's
- La Jauria video gameVirtual Store
- Virtual store
- Exchange
- Spacial Station Simulator (thematic park)
- PetitShi Foundation

DIGITAL SHEET

Shibalnu's son is the puppy Petit (PetitShib)

PetitShib is a cryptographic token that allows you to make person-to-person transfers, send and receive payments securely from your mobile or computer from anywhere in the world, without the need to access a traditional bank. PetitShib is an innovative token that forms the new payment model of the future. The digital token exchange where everyone has access to this market and with the great PetitTeam community that will turn it into digital gold for whoever owns it.

PetitShib is a token built on the Blockchain (BSC) network using BEP20 that will soon become a highly valued digital asset due to its solemnity, ease of use and trust in its community around the world. Binance Smart Chain (BSC) is a network blockchain designed to run smart applications. BSC works in alignment with Binance Smart Chain (BC) Binance Native, one of the best exchanges in the world due to its trading volume, offering users the best of both worlds: high transaction capacity of BC and smart contract capacity of BSC.

PetitShib meets a friendly and sustainable ecosystem of the PetitTeam community that structures it. Petitshib has planned to develop a trading platform where to exchange PetitShib virtual tokens into tangible products and daily necessities easily, through the exchange of digital tokens such as PetitShib and other cryptocurrencies and allied tokens.

The PetitShib crypto ecosystem has several projects, which contemplate the creation of a digital token called PetitShib (Petit) with the aim of becoming (Digital Gold) one of the strongest cryptocurrencies in the crypto market due to its condition of converting the digital into tangible , for its usability, its trust and the community that supports it "PetitTeam", in which you can buy from a phone to a house, the project has its allied tokens Thiara Inu (Thi) & La Jauria (THP). Thiara Inu is a PetitShib ally token that has a special feature for PetitShib users, La Jauria (THP). It is a special token that will be used in the video game La Jauria de PetitShib and will be used as a payment exchange between the PetitTeam community.

PetitShib will become a pioneer in Real Estate with a future project for solutions in the construction of houses in the real estate sector that can be bought and sold with cryptocurrencies.

NFT'S MARKETPLACE

The PetitShib ecosystem will integrate a Non-Fungible MarketPlace (NFT) that will provide digital assets NFT's to its PetitTeam community, offering a marketplace in the world of the metaverse that will allow the direct sale of non-fungible tokens at fixed prices or prices through an auction, based on in the BSC network.

VIDEO GAMES

The video games of the PetitShib ecosystem will immerse you in a multisensory world technical developments of the world and the Internet that will take you to various virtual environments spaces.

The world of the Metaverse will provoke you emotions of a new virtual universe, a virtual learning environment where you interact socially and economically with friends as avatars in cyberspace.

La Jauría is immersed in the world of the metaverse, La Jauría is an educational virtual game in which PetitShib, son of Shiba Inu, an adorable puppy will lead the pack to defend his father from enemies, the video game has several canine

characters and other breeds, they'll brainstorm and share amazing adventures, great for little ones at home and their parents and friends.

La Jauria will be an entertaining video game that for the first time will integrate families in their moment of relaxation. La Jauría is a video game where players can play, build, own and monetize their experiences virtually. They could also invest their cryptocurrencies and earn more coins. The Pack will have key objectives to get their rewards through space, travel, players will learn about science, the universe, the great galactic system, real calculations of physics and mathematics.

In the La Jauría video game there will be a series of experiences, players will participate with each other using strategies, knowledge and tactics to achieve objectives, fulfill missions, defeat aliens, conquer planets, destroy asteroids and be rewarded with digital assets, NFT and tokens. of the ecosystem.

La Jauría will hold a virtual event once a year, all registered members will be able to participate, they will receive a registration code and participate in great special expeditions, they can reach the proposed objectives to win rewards in digital assets NFT's and cryptocurrencies.

SPACE STATION SIMULATOR

Most people have dreamed of being astronauts since they were children, for years, a dream for so many children to travel to space and look at the Earth from the outside is something that many aspire to in this life.

But achieving it is not an easy task, and not only because of the difficulty of meeting most of the requirements of agencies such as NASA. With the construction of the space station many dreams of children and adults will come true, in the space station simulator people will be able to live the most fun and incredible space experience that they never thought they would have.

The project will have a space station and space vehicles, where visitors will be able to live unique and extraordinary moments, passing through the space station, being able to perform movements as if they were traveling in space. The station and spacecraft will feature apparatus and equipment as if they were in a real spacecraft cabin.

In this project, the same conditions that astronauts face in space will be recreated.

PETITSHIB FOUNDATION

The PetitShib Foundation will be a non-profit organization that will provide protection, rescue and adoption of abused and abandoned dogs.

The PetitShib foundation will be dedicated to providing the necessary conditions for sheltering rescued animals. The main objective of the PetitShib foundation will

be to place rescued dogs and cats in responsible family groups and permanent homes,

The PetitShib Foundation will have a professional group of veterinarians and a great team of volunteers, pet lovers to take care of each pet that comes to the Foundation.

PETITSHIB WILL HAVE A SCHOLARSHIP PROGRAM

Student Scholarships: This type of scholarship will be aimed at disadvantaged students. It offers scholarships to full-time students in need and of disadvantaged origin, they are aimed at elementary, secondary and middle school students.

Sports scholarships: This support is aimed at young people who have some sports talent, granting them a single aid as compensation for their career and promotion of training in this field.

Phase 1

- Token and Website Launch
- White Paper
- Coinmarketcap Capitalization Listing
- Coingecko Listing
- PancakeSwap Exchange Announcement
- Achieve 1,000 Petit Team Holder
- Post Project Launch Marketing

Phase 2

- Launch of NFT Marketplace
- 3000 Holder of the Petitshib community
- PetitTeam Membership Project
- Listed in Centralized Exchange

Phase 3

- Opening of PetitShib Foundation
- 5000 Holder of Petit Team
- Listing in Centralized Exchange.
- Launch of Electronic Commerce Listing of Petitshib in centralized exchange

Phase 4

- Launch of the Video Game
- Launch of the Virtual Store
- Launch of Digital Wallets
- 6000 Petit Team Holder

Phase 5

- DEX Wallet Launch
- 20,000 Petitshib Holders

Phase 6

- Launch of the first stage of the Space Station Simulator Project
